

High Capacity Series

HC Series

The High Capacity (HC) Series of refrigerators are designed for storing large quantities of a variety of materials at cryogenic temperatures. Provides temperatures of -196°C at the liquid surface, and -190°C at the top of the canisters. This series also offers a low-profile model (HCL12) with 5-inch (125 mm) canisters.

Features

- Large storage capacity
- Rugged Construction – ribbed high strength aluminum body, magneformed necktube design, and more durable paint
- Numbered index ring and tapered internal canister locator.
- Superior vacuum performance with superinsulation provides maximum holding times
- Security – Lockable lid and optional low level alarm with remote connection available
- Mobility – Roller bases are available for all models
